

Moordown St John's CE Primary School

Policy for Data Protection

**"A Christian community where commitment to
educational excellence changes lives"**

Article 3: The best interests of the child must be a top priority in all actions concerning children.

Article 16: Every child has the right to privacy. The law should protect the child's private, family and home life.

Date Approved: 20 September 2021 *A. Swain* (Chair, Board of Directors)

Review Date: September 2020 (Policy requires at least 2 yearly review)

A copy of this policy in an alternative format, such as large print or different language,
may be provided on request from the school office.

MOORDOWN ST JOHN'S CE PRIMARY SCHOOL

DATA PROTECTION POLICY

RATIONALE

As a Church of England Primary School, we seek to further the work of Christ by expecting, nurturing and demonstrating the Fruits of the Spirit (Galatians 5) in our day to day lives. The Fruits of the Spirit include Love, Joy, Peace, Goodness, Kindness, Patience, Gentleness, Faithfulness and Self-control.

At Moordown St. John's we also aim to honour and fulfil the United Nations Convention on the Rights of the Child.

'Rights' are things every child should have or be able to do. All children have the same rights. These rights are listed in the UN Convention on the Rights of the Child. Almost every country has agreed to these rights. All the rights are connected to each other, and all are equally important. Sometimes, we have to think about rights in terms of what is best for children in a situation, and what is critical to life and protection from harm. As children grow, they have more responsibility to make choices and exercise their rights.

This policy refers directly to the following articles:

Article 3: The best interests of the child must be a top priority in all actions concerning children.

Article 16: Every child has the right to privacy. The law should protect the child's private, family and home life.

SUCCESS (Skills, Understanding, Creativity, Curiosity, Enjoyment, Spirituality, Security) is at the centre of our school's ethos and identity

S – **Skills** that embed knowledge for a life full of learning and healthy relationships

U – **Understanding** how knowledge and concepts can be applied and built upon to achieve deep learning

C – **Creativity** to use skills and knowledge imaginatively to express oneself and solve problems

C – **Curiosity** to explore, investigate and understand the world

E – **Enjoyment** of life and of learning

S – **Spirituality** where faith is nourished, respected, challenged and lived

S – **Security** in themselves and who they are to reach their full potential

1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, directors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO) on the [GDPR](#) and the ICO's [code of practice for subject access requests](#).

It also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with our funding agreement and articles of association.

3. Definitions

Term	Definition
Personal data	Any information relating to an identified, or identifiable, individual. This may include the individual's: <ul style="list-style-type: none">• Name (including initials)• Identification number• Location data• Online identifier, such as a username It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.
Special categories of personal data	Personal data which is more sensitive and so needs more protection, including information about an individual's: <ul style="list-style-type: none">• Racial or ethnic origin• Political opinions• Religious or philosophical beliefs• Trade union membership• Genetics

Special categories of personal data <i>continued</i>	<ul style="list-style-type: none"> • Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes • Health – physical or mental • Sex life or sexual orientation
Processing	<p>Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying.</p> <p>Processing can be automated or manual.</p>
Data subject	<p>The identified or identifiable individual whose personal data is held or processed.</p>
Data controller	<p>A person or organisation that determines the purposes and the means of processing of personal data.</p>
Data processor	<p>A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller.</p>
Personal data breach	<p>A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.</p>

4. The data controller

Our school processes personal data relating to parents, pupils, staff, directors, suppliers, visitors and others, and therefore is a data controller.

The school is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1 Board of Directors

The Board of Directors has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2 School Based Data Protection Lead and Independent Data Protection Officer

The school-based Data Protection Lead, in conjunction with our independent Data Protection Officer, is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the Board of Directors and, where relevant, report to the board their advice and recommendations on school data protection issues.

Our school-based Data Protection Lead, Nicky Armstrong, is the first point of contact for individuals whose data the school processes. Nicky can be contacted via our school office Telephone: 01202 527683 ext 202 Email n.armstrong@st-johns.bournemouth.sch.uk

Our independent Data Protection Officer, Emily Marshall, is the first point of contact for the Information Commissioner's Office. Emily can be contacted at St Michael's Primary School, Somerville Road, Bournemouth BH2 5LH Telephone: 01202 290497

Email Emily.marshall@stmichaelsprimary.bournemouth.sch.uk

The Data Protection Lead, in consultation with the Headteacher, acts as the representative of the Data Controller on a day-to-day basis.

Full details of the Data Protection Officer's responsibilities will be set out in their job description.

5.3 All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the Data Protection Lead and/or Officer in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
 - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
 - If there has been a data breach

- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

6. Data protection principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1 Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent (except for online counselling and preventive services).

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

7.2 Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's Records Retention Schedule/Records Management policy. A copy of this is available from the School Office or may be downloaded from the Data Protection/GDPR section of our website

8. Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

9. Subject access requests and other rights of individuals

9.1 Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request they must immediately forward it to the Data Protection Officer.

9.2 Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3 Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request*

** For most of the year, we will aim to provide this information in a timely manner, but during school holidays this may become more difficult.*

- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

9.4 Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the Information Commissioner's Office
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to the Data Protection Officer. If staff receive such a request, they must immediately forward it to the Data Protection Officer

10. Parental requests to see the educational record

As an Academy, there is no automatic parental right of access to your child's educational record. The school may choose to provide this upon request, however the best interests of the child will always be considered. To request access to your child's educational record, please contact The Board of Directors, via our Data Protection Lead. If access is agreed, this information is usually provided free of charge.

11. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to Steve Tomkinson, Site Manager, 01202 527683 Email s.tomkinson@st-johns.bournemouth.sch.uk

13. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil

Uses may include:

- Within school on internal displays and in newsletters, school prospectus, other printed publications produced for school promotional purposes.
- Outside of school by external agencies/organisations (eg Daily Echo/local television/charities) to publicise special events or activities. For example, visiting dignitaries, achievement of awards, charitable fundraising, sporting activities, starting school, presentations etc *Such organisations may wish to use the images on their websites*
- The school photographer
- Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

See our E-safety policy, Acceptable Use policy, staff induction handbooks and volunteer/placement guidance notes for more information on our use of photographs and videos.

Parents/carers are reminded via newsletters that all photographs/filmed images taken at school events (eg school plays/sports events/concerts) are for personal use only and should not be uploaded to any social media sites.

14. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified Data Protection Officer, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance. *Also see section 18*
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure

15. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from the school office
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect all portable devices and removable media, such as laptops.

- The use of USB/removable devices to store/transport personal data is prohibited.
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment (see our E-safety policy, acceptable use policy, staff/trainee teacher induction handbooks, volunteer, work experience/other placement guidance notes.)
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

16. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

17. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches.

In the unlikely event of a suspected data breach, we will follow the procedure set out in Appendix 1.

When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium
- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils

18. Training

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary. *Also see section 14*

19. Monitoring arrangements

The DPO is responsible for monitoring and reviewing this policy.

20. Links with other policies

This data protection policy is linked to our:

- Freedom of information publication scheme

- E safety policy
- Acceptable Use of ICT policy
- Staff/peripatetic/trainee teacher induction handbooks
- Volunteer/Work Experience/Other Placement guidance notes

21. Policy review

This policy has been carefully considered and ratified by the Board of Directors, at its meeting on 20 September 2018

It is a legal requirement that the Data Protection policy be reviewed at least every two years. However this policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice.

Otherwise, or from then on, this policy will be **reviewed at no more than 2 yearly intervals** and shared with the Board of Directors for consideration and ratification.

The next review will therefore take place no later than September 2020. The review will be brought forward should earlier changes in protocol be recommended by the Information Commissioner's Office, the Government, the Department for Education or the Diocese.

Signed: *A. Swain*
Chair, Board of Directors

Date 20 September 2018

Appendix 1: Personal data breach procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
 - Lost
 - Stolen
 - Destroyed
 - Altered
 - Disclosed or made available where it should not have been
 - Made available to unauthorised people
- The DPO will alert the Headteacher and the Chair of the Board of Directors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
 - Loss of control over their data
 - Discrimination
 - Identify theft or fraud
 - Financial loss
 - Unauthorised reversal of pseudonymisation (for example, key-coding)
 - Damage to reputation
 - Loss of confidentiality
 - Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

- All breaches must be recorded on the school's GDPR Data Breach Recording Log which is stored on the Admin area of the school's computer network
- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are shown within the school's GDPR Data Breach Recording Log (*see above point*).

- Where the ICO must be notified, the DPO will do this via the [‘report a breach’ page of the ICO website](#) within 72 hours. As required, the DPO will set out:
 - A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
 - The name and contact details of the DPO
 - A description of the likely consequences of the personal data breach
 - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
 - Facts and cause
 - Effects
 - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)
- Records of all breaches will be detailed in the school’s GDPR: Data Breach Recording Log which is stored on the school’s computer network.
- The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Sensitive information being disclosed via email (including safeguarding records)

- *All sensitive information being sent via email should be password protected and/or encrypted prior to sending. A telephone call should be made to the recipient to advise of the password.*
- *Extra care should be taken to ensure the message is sent to the correct recipient. If special category data (sensitive information) is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error*
- *Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error*
- *If the sender is unavailable or cannot recall the email for any reason, the advice of the school's Network Manager and/or ICT support provider should be sought.*
- *In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way*
- *The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request*
- *The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted*

Other types of breach could include:

Details of pupil premium interventions for named children being published on the school website

- *The Network Manager is the only person permitted to upload information to the website.*
- *Staff members are to provide the Network Manager with the items to upload; she will check for Data Protection compliance prior to uploading.*
- *Each year, all staff to read, sign and return the Acceptable Use policy*

Non-anonymised pupil exam results or staff pay information being shared with Directors

- *The Clerk to the Directors is the link between the school and the Board.*
- *Staff members are to provide the Clerk with the items for sharing at Board meetings at least one week in advance. The Clerk will check for Data Protection compliance prior to circulating. If the data is not in a suitable format for circulating, the Clerk will return the information to the author for updating.*

- *HR and curriculum reports to the Board to be anonymised prior to sharing with the Board. Same process to be followed for accident/incident reporting.*

The school's cashless payment provider being hacked and financial details stolen

- *Staff to follow correct password protocols: use only strong passwords which are regularly changed, do not share passwords with anyone, keep passwords in a secure location etc*
- *School to maintain good cyber security ~ the Network Manager to regularly check that the school's ICT infrastructure is secure and is not open to misuse or malicious attack..*
- *The Network Manager to ensure the school meets the e-safety technical requirements outlined in th E-safety policy and any 'best practice' from central government*
- *School's ICT support provider to make regular security checks of the school's ICT system/network.*
- *The School to carry out due diligence on all suppliers to ensure they are GDPR compliant and have the necessary technical and organisational infrastructure in place to minimise the risk of any breach.*

A school laptop containing non-encrypted sensitive personal data being stolen or hacked

- *The Network Manager to ensure the school's ICT infrastructure is secure and is not open to misuse or malicious attack*
- *All staff to report any suspected misuse or problem to the Network Manager for investigation / action / sanction*
- *Laptops not to be left unattended in public (for example in cars or on public transport)*
- *All school laptops to be encrypted and access only by strong passwords (see earlier point re password protocols)*

A school memory stick/other portable device containing non-encrypted sensitive personal data being stolen or hacked

- *Use of USB memory sticks to transport/hold personal information is forbidden with effect from May 2018.*

Staff training on Data Protection issues upon induction and on regular intervals thereafter should also minimise the risk of any data breaches.
