Home Enrichment Activities

Here are some suggested activities for you to do at home with your child that will enhance their learning this half term:

- Make a New Year's Resolution – How are you going to keep it? Who will help you?
- Read a special story – discuss why it is special to you. What could you learn from it?
- Design a paper aeroplane – what makes it fly better? How does it fly? Can you investigate?
- How many countries are there in North and South America? Can you name 10 on a map? Find out some facts about each country.
