

Home learning grid - Spring 1

- Read 5 times a week - hopefully your child will be beginning to blend the sounds. We will be moving onto phase 3 phonics and new sounds will be coming home each week. Please practice phonics given out on a Friday each week.

Other suggested activities you can do at home with your child:

- Go on a walk around the local area with your child looking at what lives in our area. You could take photos, draw pictures and talk about what you see.
- Go and visit the beach to look at the ocean. Draw a picture and talk about what is living there.
- Go to library and find books about animals and bears.
- Share some Paddington stories.
- Make an ocean stick - kitchen roll tube filled with rice and colourfully decorated.
- Collect as many shells at the beach and count how many you have got or pine cones at the park.
